🤖 ACME Customer Service Training Agent

Welcome to ACME Corporation's customer service training!

Chatbot

Welcome to ACME Customer Service. How can I help?

My ACME Power Widget Pro just died! No warning, no error, just *poof* gone. I want my money back. NOW.

I am sorry to hear that. Is this the product you are talking about?

Yes! That's the one. The ridiculously expensive paperweight.

I am sorry but I absolutely cannot offer a refund

I am going to help you solving your issue. I am authorized to offer you a replacement. Would you be willing to accept it?

A replacement? So I can have another one die on me in a few months? No thanks. I want a refund.
